

# A DPE's Perspective: Changes in PTS and Common Checkride Errors

This CFI/DPE forum will review recent changes to the Practical Test Standards including new maneuvers and evaluation of ADM and SRM requirements. The examiners will also review errors frequently observed during checkrides. Helicopter and fixed wing CFI's are encouraged to attend.

**Directions:** From I-95 or the Turnpike, exit at PGA Blvd in Palm Beach Gardens and take PGA east to the Bee-line Highway 710. Follow Bee-line for approximately 2.5 miles to the Northwest and the airport entrance will be on the left. Follow Aviation Blvd. to main terminal. The classroom will be on the corner of the large corporate hangar to the right of the FBO.

## A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
